Examiner Wilson:

This email is responsive to your voice mail of today regarding an Examiner's Amendment to insert a now available Serial No. for a pending application incorporated by reference in the above-referenced application. Thanks for taking the time to fix this. In our electronic version, the serial number needs inserted at line 17 of paragraph 35. Your version may differ, but the number should be inserted into the second to last sentence which now reads as follows: "Such a selectable locking mount construction is disclosed in applicant's contemporaneously filed application for U.S. Letters Patent Serial No. \_\_\_\_\_, entitled LOCKABLE MOUNT PLATE, which is hereby incorporated by reference herein as is necessary for a full and complete understanding of the present invention." The serial number to be inserted is "10/604,660." Thanks for your help and give me a call if this is not what you were needing.

Very truly yours,
